(54) Title: METHOD FOR RENDERING TWO OUTPUT FORMATS SIMULTANEOUSLY

**WO 03/075215 A2**

(57) Abstract: A method for rendering input data simultaneously into output data (10) in a first output format and in a second output format, the method including: a) defining a plurality of bands (11-14) constituting the output data (10); and b) for each specific band (11-14) out of the plurality of bands (11-14): i) generating by a renderer from the input data first output data for the specific band (11-14) in the first output format, ii) and generating, from the first output data, second output data for the specific band (11-14) in the second output format.
